Who comes up on new search tools?	No	Yes

When someone searches: "where can I get Holistic Wellness near Humble"

AI tools give one answer, not a list. When it's your competitor, that call goes to them.

WHY THIS IS HAPPENING

AI tools read your reviews, listings, and every mention of your business online.

The most complete, consistent presence gets recommended. Gaps get passed over.

01 AI Makes the Call
Reviews, listings, citations — AI tools cross-reference all of them to pick one business.

02 The Window Is Open
Most businesses in your area haven't built this presence yet.

03 We Build It For You
Results compound gradually. You gain ground every week.

WHAT THIS IS COSTING YOU

When patients search a new way, businesses with more signals show up first.

Your Google listing covers about 30% of where new search tools look.

Your current marketing gets you noticed. Queso Ventures gets you found.

Let's get you found sooner.
